

`std::is_trivially_copyable< T >`

`absl::is_trivially  
_relocatable< T >`

The diagram consists of two rectangular boxes. The top box is white with a black border and contains the text `std::is_trivially_copyable< T >`. The bottom box is gray with a black border and contains the text `absl::is_trivially_relocatable< T >`. Two blue arrows originate from the top of the gray box and point upwards to the bottom of the white box, indicating that the `absl` trait is used to implement the `std` trait.
