

absl::Cord::Contains

absl::Cord::Contains

absl::Cord::Find

```
graph LR; A[absl::Cord::Contains] --> C[absl::Cord::Find]; B[absl::Cord::Contains] --> C;
```

The diagram illustrates a relationship between two 'absl::Cord::Contains' nodes and an 'absl::Cord::Find' node. Two white rectangular boxes, each containing the text 'absl::Cord::Contains', are positioned on the left. Two blue arrows originate from the right side of these boxes and point towards a single gray rectangular box on the right containing the text 'absl::Cord::Find'.
