

absl::StrSplit

```
graph LR; A[absl::StrSplit] --> B["absl::strings_internal::ConvertibleToStringView::value"]
```

A diagram illustrating a dependency. On the left, a gray rectangular box contains the text 'absl::StrSplit'. A blue arrow points from the right side of this box to a larger white rectangular box on the right. This white box has a black border and contains the text 'absl::strings_internal::ConvertibleToStringView::value'.

absl::strings_internal
::ConvertibleToStringView
::value
