

Eigen::internal::BandMatrix  
Base::diagonalLength

```
graph LR; A["Eigen::internal::BandMatrix  
Base::diagonalLength"] --> B["Eigen::internal::BandMatrix  
Base::cols"]; A --> C["Eigen::internal::BandMatrix  
Base::rows"]
```

The diagram illustrates a relationship between three C++ code snippets. On the left, a gray-shaded box contains the text 'Eigen::internal::BandMatrix' followed by 'Base::diagonalLength' on a new line. Two blue arrows originate from the right side of this box. The top arrow points to the top of a white box on the right containing 'Eigen::internal::BandMatrix' followed by 'Base::cols' on a new line. The bottom arrow points to the top of another white box on the right, containing 'Eigen::internal::BandMatrix' followed by 'Base::rows' on a new line.
