

Eigen::internal::accurate  
\_log2::operator()

Eigen::internal::scalar  
\_log2\_op::packetOp

Eigen::internal::plog2

```
graph LR; A[Eigen::internal::accurate_log2::operator()] --> C[Eigen::internal::plog2]; B[Eigen::internal::scalar_log2_op::packetOp] --> C;
```

The diagram illustrates a relationship between three Eigen library components. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'Eigen::internal::accurate\_log2::operator()' and the bottom box contains 'Eigen::internal::scalar\_log2\_op::packetOp'. On the right, a gray rectangular box contains the text 'Eigen::internal::plog2'. Two blue arrows originate from the right side of the top and bottom white boxes, both pointing towards the left side of the gray box, indicating that both functions are implemented or mapped to the 'plog2' component.
