

absl::MakeSeedSeq

```
graph LR; A[absl::MakeSeedSeq] --> B["absl::random_internal::RandenPool::Fill"]; A --> C[absl::MakeSpan];
```

The diagram illustrates the call path for the `absl::MakeSeedSeq` function. It is represented by a gray rectangular box on the left. Two blue arrows originate from the right side of this box. The upper arrow points to a white rectangular box containing the text `absl::random_internal::RandenPool::Fill`. The lower arrow points to another white rectangular box containing the text `absl::MakeSpan`.

absl::random_internal
::RandenPool::Fill

absl::MakeSpan
