

absl::strings_internal
::STLStringResizeUninitialized

```
graph LR; A["absl::strings_internal  
::STLStringResizeUninitialized"] --> B["absl::strings_internal  
::ResizeUninitializedTraits  
::Resize"]
```

A diagram illustrating a function call. A gray box on the left contains the text 'absl::strings_internal' and '::STLStringResizeUninitialized'. A blue arrow points from this box to a white box on the right. The white box contains the text 'absl::strings_internal', '::ResizeUninitializedTraits', and '::Resize'.
