

absl::ReportError

```
graph LR; A[absl::ReportError] --> B[absl::DumpNode]; B --> C[absl::CEscape];
```

The diagram illustrates a three-step process flow. It begins with a gray rectangular box containing the text 'absl::ReportError'. A blue arrow points from this box to a white rectangular box containing 'absl::DumpNode'. Another blue arrow points from the 'absl::DumpNode' box to a final white rectangular box containing 'absl::CEscape'. All boxes have a thin black border.

absl::DumpNode

absl::CEscape
