

Eigen::DefaultDevice
::memcpyHostToDevice

```
graph LR; A["Eigen::DefaultDevice::memcpyHostToDevice"] --> B["Eigen::DefaultDevice::memcpy"]; B --> B;
```

The diagram illustrates a function call. A grey rectangular box on the left contains the text 'Eigen::DefaultDevice::memcpyHostToDevice'. A straight blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'Eigen::DefaultDevice::memcpy'. A curved blue arrow originates from the top of the white box and points back down to the top of the same box, representing a self-call or a loop.
