

absl::log_internal
::ProtoField::float_value

```
graph LR; A["absl::log_internal  
::ProtoField::float_value"] --> B["absl::bit_cast"]
```

The diagram consists of two rectangular boxes connected by a blue arrow. The left box is filled with a dark gray color and contains the text 'absl::log_internal' on the first line and '::ProtoField::float_value' on the second line. The right box is white with a dark gray border and contains the text 'absl::bit_cast'. A blue arrow points from the right side of the left box to the left side of the right box.

absl::bit_cast
