

absl::random_internal
::pcg_engine::pcg_engine

absl::random_internal
::pcg_engine::pcg_engine

absl::random_internal
::pcg_engine::seed

```
graph LR; A["absl::random_internal::pcg_engine::pcg_engine"] --> C["absl::random_internal::pcg_engine::seed"]; B["absl::random_internal::pcg_engine::pcg_engine"] --> C;
```

The diagram illustrates a relationship between three objects. On the left, there are two identical white rectangular boxes, each containing the text 'absl::random_internal::pcg_engine::pcg_engine'. On the right, there is a gray rectangular box containing the text 'absl::random_internal::pcg_engine::seed'. Two blue arrows originate from the right side of each white box and point towards the left side of the gray box, indicating that both pcg_engine objects are associated with or point to the seed object.
