

Eigen::SparseMatrix  
::insertBackUncompressed

```
graph LR; A["Eigen::SparseMatrix  
::insertBackUncompressed"] --> B["col"]; A --> C["row"]
```

The diagram illustrates the arguments for the `Eigen::SparseMatrix::insertBackUncompressed` function. A central gray box contains the function name. Two blue arrows originate from the right side of this box: one points to a white box labeled `col` and the other points to a white box labeled `row`.
